NATO green 24 or sand yellow. Custom colors are available.

7 Gallons US

WEIGHT: 31 lbs.

EXTERNAL DIMENSIONS:

24W x 14H x 17D (inches) Interlocking Stackable Design

NSF

Outstanding insulation and a double latch for securing the lid provides outstanding holdover value and prevents the contents from the slightest leakage. Made for the most rigorous requirements under field conditions with no savings in material or engineering. A practically indestructible housing out of polyethylene with an outer lid that is secured by two latches holds like a shell the inner container made out of AISI 304 (stainless steel 18/10) with a lid constructed of the same material. This container is hygienic, easy to use, and easy to clean.
