military
DIVISION

LIGHTWEIGHT / INSULATED FOOD TRANSPORT CONTAINER

GB 7L-C-1

CONSTRUCTION:

Removable stainless steel inner liner with removable lid. Outside housing made from rotomolded polyethylene. The container can be easily handled with two rotomolded handles as a part of the outer container

INSULATION:

Insulation foam is CFC free PUR foam in a density of 38g/liter

LID:

Leakproof sealing of the lid enables even loading of the closed container

INNER CONTAINER:

Constructed of food grade 304 stainless steel. Stainless steel lid contains an air vent and fool proof rubber seal

COLOR:

NATO green 24 or sand yellow. Custom colors are available.

CAPACITY:

7 Gallons US

WEIGHT:

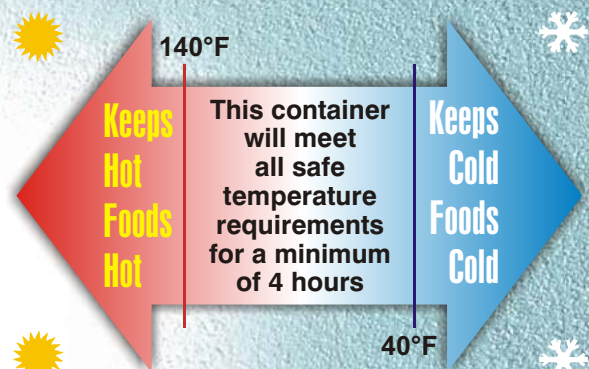

27 lbs.

EXTERNAL DIMENSIONS:

25L x 17W x 13H (inches)
Interlocking Stackable Design

Outstanding insulation and a double latch for securing the lid provides outstanding holdover value and prevents the contents from the slightest leakage. Made for the most rigorous requirements under field conditions with no savings in material or engineering. A practically indestructible housing out of polyethylene with an outer lid that is secured by two latches holds like a shell the inner container made out of AISI 304 (stainless steel 18/10) with a lid constructed of the same material. This container is hygienic, easy to use, and easy to clean.
